Dear Rene Ruiz,

I wanted to express my thanks for your assistance with the ABC Central Texas Partnership this past year. Your support of the ABC safety committee shows your commitment to worker safety and health on a personal and professional level. Your assistance in helping conduct the partnership on-site inspections was invaluable. You found hazards that the rest of us on the inspection team (including the OSHA compliance officer) missed. As a direct result of your finding these hazards, workers were protected from worksite injury or death. I especially appreciated the fact that your employer allowed you to participate and provide your expertise to the other partner members, and to OSHA. Dedicated safety professionals such as you are essential to the OSHA partnership, to increasing the dialogue on safety and health, and to the construction industry.

Thank you for your commitment to worker safety and health.

Joann Natarajan
Compliance Assistance Specialist
